GROW IT.

"I like what I do and I enjoy staff and clients.

Being here this long, I've seen lots of graduates. At TH, we're a family. People enjoy coming back and visiting. Whether for support or just a social visit, it's nice to see people who have been a part of TH for years."

Statements of Support

Helping clients be successful

In 1995 I became part of Transition House Staff. I didn't really know that much about mental illness but quickly understood how important Transition House's work was to our clients and community. Through the years, I've seen success and failures, but can't really say failures, just bad choices. Our staff works really hard trying to help client be successful in their future for their next phase in life.

Being here this long, I've seen lots of graduates. At TH, we're a family. People enjoy coming back and visiting. Whether for support or just a social visit, it's nice to see people who have been a part of TH for years. I like what I do, and I enjoy staff and clients.
