BE IT.

"I have always been drawn to the helping profession since I was a kid, and I have always been more of a giver than a taker. That is why I am so pleased to be a part of the work that Transition House does every day. The support, the resources, and the connections make this place like no other. I consider myself lucky to be a part of this agency, so I strive to provide the best care I can for every individual who walks through our doors. I am committed to making a difference in our community by maintaining a safe space for anyone who needs it. Transition House is a one of one, and I am going to take every opportunity to continue the work they do."

TRANSITION HOUSE IMPACT

Helps Others Grow to be More Than Just Their Illness

Transition House has helped me connect with the community and the wonderful people of Norman. TH helps others grow to be more than just their illness. TH touches the lives of every person who walks through the door. Every opinion I've heard about TH has been positive. I feel like TH can help anyone in some way.

TH is important because they are a huge support system for many individuals in Norman. TH is the only support system for many people.
